

Wireless Internet Policy

*Approved October 14, 2019
Updated November 10, 2025*

PURPOSE:

The Harlan Community Library offers free wireless Internet access to library users with wireless-enabled devices. The library provides unrestricted access to the Internet and does not monitor or control content.

SCOPE:

The provisions set forth in the Library's Computer Use Policy pertain to people using devices that acquire internet access via our wireless network.

POLICY:

Our network supports a wide range of wireless devices. Most wireless network cards will be compatible. However, the Library can make no guarantees as to compatibility of a library user's device with the Library's network. Library staff does not provide wireless access support and will not install or modify hardware or software.

- Communication through the wireless network should not be considered secure.
 - Library users are responsible for selecting and installing security protection and current virus definitions on their wireless devices.
 - The Library is not responsible for damage to hardware or software, transmission of computer viruses, loss of data or email, or any harm resulting from the use of an unsecured server.
 - It is strongly advised that personal, financial or otherwise sensitive information not be transmitted through the wireless network.
